

WLS-15 Water Sensor

Living Worried-free, Without Water trouble

The WLS-15 series of wireless water leak sensor is designed to alert you before the disaster happens and helps to reduce the risk of water damage. It is a perfect solution of monitoring water leaks in basement, garage, bathroom and kitchen or any place water leakage might occur. The WLS-15 can also connect with add-on optional extendable water probe or water sensing cables for different applications, hard-to-reach areas and increase detection area. Completely wireless, WLS-15 can be easily install anywhere needed and provide you with a peace of mind.

WLS-15 series adopts Climax's cutting-edge F1 RF technology to accelerate the speed of signal transmission and deliver extensive RF communication range. WLS-15 instantly sends an alarm signal when detecting the presence of water and generates a loud siren as well as flashes its red LED, providing effective audible and visual alerts to prompt a timely response. The reliable and robust protection the WLS-15 provides radically reduces flood risks in any home and saves the user the potentially exorbitant costs associated with water damage restoration.

Features

- Detects water leakage and floods to deliver early warnings
- Two types of detection probes for wall mounting or ground deployment
- Optional extendable water probe and water sensing cables for hard-to-reach areas and increase detection area
- Generates loud alarm siren when water is detected
- Built-in red LED flashes to provide visual alert when alarm is triggered
- Regular supervision signals to check system integrity
- Low battery detection
- Compliant with CE requirement

Water Probe Cable Included

Specifications

Frequency	868 MHz / 433 MHz / 869 MHz
Power Source	3V, CR123A Lithium Battery x 1
Battery Life	10 years*
Siren Output	95dB at 1 meter
Operating Temperature	-10°C to 45°C (14°F to 113°F)
Operating Humidity	Up to 85% non-condensing
Dimensions	95mm x 29.5mm x 82.5mm

* Note: Actual battery life may vary with product settings, operating environment, and usage.

WLS-15 Water Sensor

Optional Water Probe Extension Cables

Optional Water Sensing Cable

Applications

Optional extension cables come in various types, allowing you to combine them in the way that best works for you. Following are a few possible applications:
